1. These questions come from the Django project tutorial materials.

   What is the name of the application we build in step 1 of "Writing your first Django app, part 1"?

   ⦿ polls
   ○ dogs
   ○ cats
   ○ autos
   ○ blog

   ✓ **Correct**

   `1 / 1 point`

2. What command do we run on PythonAnywhere instead of "python manage.py runserver"?

   ○ python manage.py migrate - and then set the virtual environment
   ⦿ python manage.py check - and then reload the web application
   ○ python startapp polls
   ○ python manage.py paw_restart

   ✓ **Correct**

   `1 / 1 point`

3. What command is used to add a new application to a Django project?

   ○ python manage.py build
   ○ python manage.py create
   ⦿ python manage.py startapp
   ○ python manage.py new

   ✓ **Correct**

   `1 / 1 point`

4. In the mysite/urls.py file, what is the basic idea of "include"?

   ⦿ To make it easy to plug-and-play URLs
   ○ To pull in commonly used HTML material
   ○ To properly install Django and all its dependencies
   ○ To apply a regular expression to the incoming path in the request object

   ✓ **Correct**

   `1 / 1 point`

5. What is the purpose of the admin site in a Django project?

   ○ It checks to see if your server is using too many resources
   ○ It makes sure all of the software is always the latest version
   ⦿ It lets you add, change, and delete data items
   ○ It tracks user activity

   ✓ **Correct**

   `1 / 1 point`
